Forty-Seven Say Farewell To Building Here As Vacation Begins

Largest graduating class in the history of the grammar school received diplomas from Edwin W. Ward Jr., president of the school board at exercises in the school auditorium, Wednesday evening. Forty-seven boys and girls graduated from the 8th grade and will continue their studies at Woodrow Wilson Junior High School in September. The list of graduates was published in the NEWS of June 7.

Studies were concluded this week for Sierra Madre grammar school students, and all local boys and girls who attended schools in Pasadena. With graduation exercises at the Rose Bowl last evening, and at the grammar school Wednesday evening, today is a holiday for those students. The actual beginning of their three months vacation period, St. Rita's students started their vacation on Monday of this week.

Floretta Keith was chairman of last night's program arranged by the grammar school graduating class and the music department. An overture played by the school orchestra with Francis Boyer conducting opened the program, followed by a Pledge of Allegiance to the Flag and song by the class. Three talks were given by graduates: Gordon Zahler, arithmetic; Yosef Rogat, English, and Chester Cohen, science and health. Helen Stewart played a piano solo, followed by a talk on art by Janet Gerschler, and on social science by Stanley Levine. Presentation of the graduating class was by Gerald Smith, superintendent, and Mr. Ward presented diplomas. A farewell by the seventh grade with the graduating class, "Alma Mater" and "Recessional" by the class concluded the exercises.

## Community Fund Is Less Than Half Subscribed Now

Less than one-half of the \$815 Kiwanis Community Fund quota has been raised, according to William L. Burr, club president, with approximately \$300 subscribed. "Contributions are slow," said Mr. Burr, "but we'll just have to get out and work until the quota has been reached—we can't let the city's youth down in this important period."

Eighteen club members attended the All-Kiwanis night at the Altadena Golf Club on Monday. This is an annual affair held during the Kiwanis International convention held in Minneapolis this year. About 212 members from clubs in division 10 spent the afternoon and evening at Altadena playing baseball, golf, badminton, swimming and other sports.

Workers should bring their own thimbles and scissors.

No public collections were made this week to enable other organizations to solicit for their campaigns. War relief fund totalled \$1475.94 Wednesday evening.

## Start Summer School At PJC June 2

Registration For Many Courses Will Open Early Monday Morning

A six-weeks summer session will be held at Pasadena Junior College, East Campus, beginning June 24. T. V. Truman, principal, announced yesterday. Large numbers of students will attend from Sierra Madre, Pasadena and other San Gabriel Valley towns, according to inquiries already received. The schedule lists 114 high school and college subjects, including 44 university classes. In addition, there will be a division of work for junior high school students including 7th, 8th, 9th and 10th years.

Courses satisfactorily completed, according to David Reidy, dean of the session, will yield credit in the same manner as regular semester work, due to longer daily class periods and more concentrated study. Work ordinarily completed in 18 weeks is covered in six weeks. The university courses give credit which may be used at the University of California, University of Southern California and other schools.

Work is offered in the division of humanities, including English, art and language departments; life science, with a wide range in chemistry and physics, besides various mathematics courses. Junior high school work for 9th and 10th years includes algebra, biology, English, general science, geometry, and social science. The School of Business lists 21 courses, including both diploma and university courses. A wide selection of courses is provided by the social science department.

Students now attending the local high school may see their counselor and make application for the summer school. Registration will be held at the Pasadena Junior College, main building, on Monday, June 24, 8 a.m.

## Observations

By Lee Shippey

SIERRA MADRE was the first town in the San Gabriel Valley to organize a Red Cross branch, back in 1914. It has always been exceptional in its support of the Red Cross and every citizen of the town is proud of that fact. For who is there who would not be ashamed of living in any community which is famous for relieving suffering, making tragedy bearable and rendering aid to the victims of disaster? Now that the greatest mass tragedy of all history is being enacted in Europe we should all feel so thankful when we compare our lot with that of millions of stricken men and women and children as to make us eager to give until we can really feel it.

No other organization covers so wide a field or renders so great a service as the American Red Cross. But I hope you will also give a little to the American Volunteer Ambulance Corps fund which the newspaper girls of our Valley are raising to pay for an ambulance named in memory of San Gabriel Valley boys who died in World War No. 1.

In its specialized field of ambulance work no other organization is rivaling the American Volunteer Ambulance Corps. Neither its officers nor its ambulance unit members receive any pay. They have more ambulances at the front than has any other one organization, for the simple reason that they were the first in the field. This San Gabriel Valley ambulance is a project of our own girls, dedicated to our own World War heroes.

## Short Cut To L A Vital To Sierra Madre

Crosstown Route Through Altadena To New Freeway Subject Of Hearing

Plans for a short cut across Altadena to the new Arroyo Seco freeway, connecting this area with Los Angeles in a high speed transportation system and which is of great interest to and vitally important to Sierra Madre, was held in the State building in Los Angeles, Wednesday.

Mayor Schiltz and City Engineer Sam Graham who attended the hearing report that three routes across Altadena from Foothill blvd. to the Arroyo Seco were proposed. First is the existing route along the foothills by way of North Foothill blvd. Another would designate New York avenue from Foothill blvd. west. Washington avenue was the third alternative. All three plans were strongly urged by various groups. A fourth group vigorously opposed any cross-town thoroughfare as was suggested by the County Regional Planning Commission.

Further hearings will be held at the state building on August 17 when the state highway commissioner and state highway engineer will be present.

Sierra Madre is vitally interested because it is proposed to extend Rosemead blvd. from its present intersection with Foothill blvd. diagonally through the Hastings Ranch to a point on North Foothill blvd. just above the Coolidge Rare Plant Gardens and to designate this extension as Foothill blvd., abandoning the present Foothill blvd. from Rosemead west to Santa Anita avenue in East Pasadena as a major highway.

If there is to be such a freeway through Altadena, Sierra Madre's natural interest is said by many to be via Washington avenue, which would be reached by a bridge across Eaton Wash from Sierra Madre blvd.

## Mayor Appeals For Generous Response For War Relief

All the radio stations in Southern California will open between 9 and 11 o'clock tomorrow night for a Red Cross war relief broadcast featuring 40 of Hollywood's best known film and radio stars, who will be presented in an appeal for funds to help victims of the ruthless war in Europe. Mayor W. J. Schiltz asked Sierra Madraens yesterday to hear the program and to respond as generously as they can possibly do. He said:

"The most devastating war in the history of the world is being carried on abroad. Millions of people are suffering horribly—in an inconceivable condition of war where families are wandering aimlessly, homeless, hungry and bewildered. No normal human being could resist the impulse to help these rightfully afflicted people if they could see them. This is a real condition, however, we must visualize it and we who are so fortunate as to enjoy the greatest blessings that have ever come to a people in the history of the world should reach deeply into our pockets even to the point of suffering ourselves for those who abroad are suffering so terribly. I hope our citizens will do the thing they have always done in such emergencies—give willingly and freely."

## Another Shortage In City Water Accounts Found; Expect Arrest Today

Council Issues Statement—District Attorney's Force And Auditor's Work On Books—Deputy City Clerk Said To Have Made Confession At Conference With Authorities

A statement issued by the city council last night disclosed that there is a shortage in the funds of the city water department, "and that monies have unlawfully been taken" from collections of water accounts. The statement follows:

"The City Council announces that after a week's intensive work in auditing the books of accounts of Mrs. Florence D. Jensen, deputy city clerk and bookkeeper in the water department of the City of Sierra Madre, it has been definitely ascertained that a shortage has occurred and that monies have unlawfully been taken by her from the water collections. The work of auditing is continuing until the total amount of the shortage is ascertained.

"In the meantime the matter has been reported to the office of the district attorney. Investigation on the part of the district attorney's office is under way."

No formal complaint had been lodged against Mrs. Jensen last night, though it was indicated that this procedure would undoubtedly follow this morning. Auditors from the district attorney's office spent all of yesterday in the city hall here and it was said that Mrs. Jensen was in "technical custody," though not confined.

## City Quick To Give For An Ambulance

The project of the San Gabriel Valley Newspaper Women to raise \$2600 to send an American ambulance and driver to the aid of the Allies got into high gear this week with parties in half a dozen towns which added several hundred dollars to the fund. In Sierra Madre a dessert bridge given by Mrs. Ida Lawless at Wistaria Vine Gardens, a tea given by Mrs. Lee Shippey, donations and the sale of tickets increased the amount \$109, so that Sierra Madre seems sure of going over its quota of \$250.

Mrs. Pauline Turner Collier gave a tea in Altadena Sunday and Tuesday Mlle. Claire Jacomone gave a tea in Pasadena which added more than \$180 and several other activities are in prospect in that sector. In San Marino, Arcadia and Monrovia parties are scheduled, one being planned by Mrs. Buron Fitts.

The newspaper girls are not declining money from outside sources. Marjorie Hesse led an expedition to a meeting of the John O'London Club in Los Angeles Friday and brought back \$55.

Hilarity will reign again at the East Montecito studio of A. J. Dewey when a benefit performance of the "Gay Nineties" show will be given in the near future by the drama group for the Sierra Madre Arts Guild for the San Gabriel Valley Ambulance Fund. The entertainment was starred a first time Saturday night and was an outstanding success. It is hoped proceeds of the show to be given will add materially to Sierra Madre's ambulance quota.

Mrs. Lee Shippey will sing a group of French songs at Tuesday's Kiwanis meeting at Wistaria Vine Gardens, and explain the purpose of the drive sponsored by the San Gabriel Valley Newspaper Women's Association. Mrs. Shippey will wear a costume of Brittany.

Mrs. Hattie Lumpkin opened her home at 40 South Hermosa avenue yesterday afternoon from 3 to 5 o'clock for a benefit tea.

## To Install Woman's Club Officers And Members Wednesday

Mrs. Waverly Pratt will be installed as president of the Sierra Madre Woman's Club, next Wednesday afternoon at the final meeting of the year, when Mrs. J. Milton Steinberger will initiate club members elected to office for the coming year.

The installation ceremony will take place at 2:15 following a musical program which will be given by Laura Cadmus Edwards, soprano, who has been a member of the board of directors for the year just closing. Following the installation, tea will be served in the garden with Mrs. Paul N. Carter, hostess, assisted by Juniors of the Woman's Club, Miss Elizabeth Steinberger and Mrs. Laura Stevenson, charter members to be honored guests for the day, will pour.

## Summer Here Ahead Of Schedule

This is the longest day of the year, and the first day of summer, but summer weather came to Sierra Madre ahead of schedule, and is likely to remain, according to Col. H. B. Hersey, who said normal summer temperatures have arrived. Precipitation total for the season is 25.91 inches; normal for season, 23.62 inches. Temperatures for the week were:

## FATHER HAS DAY ALL HIS OWN IN SIERRA MADRE

SIERRA MADRE fathers received their just share of the tribute on Sunday when fathers throughout the country were accorded recognition and honor. Practically every Sierra Madre home had some special Father's Day affair—just for dad.

At the home of Mr. and Mrs. Rudolph Hartman there was a joint celebration of the Hartman families and the John Spolstra family, with F. H. Hartman, Rudolph Hartman and John Spolstra guests of honor.

At the J. S. Billheimer home, Dr. and Mrs. Phillip Murdoch of Long Beach made the day a happy occasion for Mr. Billheimer.

Japanese fathers and many Japanese bachelors of the community were remembered by the girls of the Esemian Club, who presented each with a carton of a cooling beverage and an appropriate note.

Mrs. Foster Bumpus and children spent Father's Day with Mrs. Bumpus' parents, Mr. and Mrs. W. Forsman, in Los Angeles, where the family dinner party also celebrated the birthday anniversary of Mr. Forsman.

Major and Mrs. P. B. Linville were surrounded by their children who came from Los Angeles to honor Major Linville at a jolly family dinner. Those present were Mr. and Mrs. J. D. Simpson, Mr. and Mrs. Charles B. Linville and daughter Marjorie, and Miss Bertha Linville.

Mr. and Mrs. John J. Emrick and baby daughter Suzanne, dined with Mrs. Emrick's parents, Mr. and Mrs. Thomas Mylett.

Mr. and Mrs. Glenn M. Ogg and daughters Lois and Betty, of 258 North Mountain Trail, spent Father's Day in Los Angeles with Mr. Ogg's parents, Rev. and Mrs. W. D. Ogg, who were also delighted with the presence of their daughter, Miss Grace Ogg, who drove down from Tracey to be with her father.

Mr. and Mrs. P. T. Roberts and daughter Aileen, former residents of Sierra Madre now living in Beverly Hills, attended a family gathering at the home of their daughter and son-in-law, Mr. and Mrs. Henry Gregor Jr., of 175 San Gabriel court.

Members of the family of L. S. Ward gathered at the Ward home, 263 West Highland avenue, to honor Mr. Ward, with whom they spent the day and enjoyed a family dinner party arranged by Mrs. Ward. Present were Mr. and Mrs. Floyd Davis and children, Mrs. Helen Stevenson and children; Mr. and Mrs. Bob Ward, and Miss Jackie Ward.

Mr. and Mrs. Peter Thill were hosts to Mrs. Thill's father, Henry Dufner, and Mrs. Dufner, for a family party Sunday evening.

Earlier in the day Mr. and Mrs. Thill, who celebrated their 21st wedding anniversary Sunday, enjoyed a quiet dinner in Pasadena.

Judge E. W. Camp, now living at the University Club in Los Angeles, was a Sierra Madre visitor, Saturday, much interested in the many fine new homes and families here.

Fifty women of the community were present. Arrangements were in charge of Mmes. Marie McMillan, Gretta Patterson, Jane McElwain, Al Miller, Waverly Pratt and Miss Hazel James Ferguson.

## MOTORCYCLE HITS CAR; RIDER HURT

Forrest Schenck of East Pasadena suffered a lacerated scalp shock and pavement burns Tuesday when his motorcycle skidded into the rear of an automobile driven by Mrs. Helen Park of 590 West Sierra Madre blvd. Mrs. Park was driving east on Foothill extension and stopped at the Sierra Madre car tracks to let an interurban car pass. While she was stopped the motorcycle, also eastbound, crashed into the rear of her car.

## Is there a Formula for Success?

Why do some forge ahead, while others get nowhere?

We doubt if there is a formula that would make success sure. But there is a "success system" that seems to work time and again.

It is this: 1. Set a goal; 2. Strive steadily toward it; 3. Put part of your wages in a bank account each pay day so that you will be ready for opportunity when it comes.

## What A Girl Sees Ramblin' 'Round

WHETHER or not it is scientific data... Forest Ranger "Pat" Harlan of the Santa Anita ranger station, made an interesting discovery recently... when driving along at 28 miles an hour... He noticed a bee flew beside the car for more than 100 yards... Bees travel along speedily enough... but Harlan didn't know they could do 28 miles an hour.

● This happened in Texas... A tourist asked a hotel manager in Amarillo what attractions the city offered... "A helium plant—the only one of its kind in the world"—the hotel man said... After thanking him the tourist added "I hope it's in full bloom"... Helium, the stranger didn't know... is a gas used in dirigibles... ● Two baby humming birds a week old... in a nest the size of half an egg... are viewing Sierra Madre from a rosebush... The nest is so small it is practically invisible... and the tiny birds are just clumps of gray feathers...

Mrs. Francis Hartman returned during the weekend from a prolonged visit in Ohio and is now home to her friends at her Pasadena residence, 1161 S. Oakland avenue.

Mr. and Mrs. D. B. Christie were visitors Sunday at the Veterans Hospital at Sawtelle where Mrs. Christie's uncle, Joe L. Palmer, former United States Senator from Iowa, was taken recently when bronchial pneumonia developed from a cold. Mr. Palmer who is 97 years old has for the last several years made his home in West Los Angeles. Because of his advanced age his condition is considered critical.

Mr. and Mrs. John Shaw spent the weekend with an uncle, M. C. Taylor, in Hollywood. On Sunday they visited Mrs. Stella Dennis in General Hospital and reported that the condition of the former

with bright dots for eyes... Some beautiful roses are going to waste because the mother humming bird maintains a hands-off policy as far as the bush is concerned.

● There is a group of Sierra Madre boys who have peculiar ideas about a good time. They thought it would be fun to disrupt a program at St. Rita's... and with stink bombs they succeeded... and made it quite unpleasant for all... Nice, well-bred, kids we'd say...

● Many people dislike chow dogs... Just why... we didn't know until we heard a citizen who has had much experience with dogs give his version... He said we have to put up with snobishness in humans but why from dogs... we didn't have to take it... Those who own chows don't agree that they are uppity...

● One of the most beautiful springtime sights in Sierra Madre... the hundreds of blue flowering jacaranda trees... is rapidly passing for another year... For the past few weeks the blossoms have been gorgeous but warm weather is putting an end to their delicate loveliness... While the flowers are on their way out... the leaves are bushy and green...

● We just dropped an important piece of work and raced through the building to answer the telephone... "Ah, hang up—its wrong number," said the "well-mannered" lady on the other end of the 'phone when we told her our number. What would you have said... or done in such a case?... On second thought maybe you'd better not send in your answer... it undoubtedly couldn't be printed in this family journal any more than it is possible to print some of the things townsfolk tell us about their neighbors who borrow their copy of the NEWS instead of subscribing to the paper themselves... Even freedom of the press doesn't permit that.

## CALIFORNIA AWAKENS; DAYS OF "FIFTH COLUMN" NUMBERED

By RALPH H. TAYLOR  
(Executive Secretary, Agricultural Council of California)

CALIFORNIA organizations, which had the foresight and courage to warn the State against the spread of Communism and seditious activities long before the apt term, "Fifth Column," came into being—and which were bitterly condemned for even suggesting such a thing—have achieved belated vindication during recent weeks.

Overseas, a liberty-loving nation after another has foundered on "Fifth Column" treachery, sold-out by enemies who bared from within.

And here in California, the report of the Assembly committee on subversive activities, which was rendered during the closing days of the special session of the State Legislature, is a clarion call to arms against the same forces and influences which sought to terrorize farming communities and incite class violence.

That committee, headed by Assemblyman Sam Yorty of Los Angeles, a crusading liberal—who fortunately discovered that many well-intentioned liberals were being sucked into cleverly-disguised Communist organizations, and who had the courage and honesty to ferret out the truth and make it public—rendered a report which electrified the Legislature and which has already brought action on several fronts to protect California from the enemies within its gates.

"There is conclusive evidence of the stark reality of the 'Fifth Column' in California," the committee reported.

"Americans already have delayed too long in facing the problem which these 'Fifth Columns' has created. We must not continue to make the mistake of being apathetic and tolerant toward their treasonable activities. If we do, our inexcusable apathy and

California continued to spend more than it made in the first 11 months of the fiscal year, 1939-40, State Controller Harry B. Riley reported in Sacramento yesterday, with the result that the State had a general fund cash deficiency of \$71,213,509 on May 31. This is an increase of \$30,672,245 over the \$40,541,264 deficiency of May 31, 1939. Combined costs of city and county government increased slightly more than 27.61 per cent in the last 11 years. Riley revealed in his 1939 annual report. Bonded indebtedness of all of California's cities, counties and the State combined had a net increase of \$210,969,583 in the 11 year period while values of city and county property as assessed by city and county officers underwent a net decrease of \$513,716,120. Of the total cost of county government in 1939 education accounted for \$180,142,572 or 44.3 per cent. Charities took the next largest chunk, \$91,374,528.

There are 26,000,000 passenger cars registered in the United States and approximately 16,000,000 of that number have been manufactured in the last five years.

Troubled waters in Europe wash quickly against the shores on this side of the Atlantic, reducing four thousands miles of ocean to a little lake. Today the cannonading on the battlefields of France carries its echo throughout this hemisphere, bearing the warning that a quick Allied defeat may lead to uprising by Nazi agents against governments in Latin America. The elaborate groundwork for such action has been carefully laid over a period of years. The nation has just restated its unswerving adherence to the policy of the Monroe Doctrine. If that clear-cut warning drive

misguided tolerance will eventually be discovered among the tools used to destroy our government, our constitution and our freedom."

The recommendations of the Yorty report are interesting, not alone because they highlight the problem and means of coping with it, but also because they are recommendations, for the most part, which farm organizations have made for several years past. They are as follows:

Undertake immediately a thorough investigation of all subversive activities in California. (After the report was rendered, the Legislature appropriated \$2500 to permit the Yorty committee to make a further investigation.) Enact laws, both Federal and State, to force leftwing propagandists and undercover party operators into the open. (This column recently recommended that Communists, voting the Communist ticket but hiding their registration, be driven into the open by a requirement that any political party must have a registration equaling 3 per cent of the vote at the preceding general election.)

Set up legal machinery to strengthen defenses against actual physical sabotage by subversive elements.

Analyze our educational system to determine where it has failed to inculcate students with an appreciation of American democracy.

And strengthen the laws to eliminate politics and radical domination in SRA.

It is unfortunate, perhaps, that it took the threat of war—and the tragic object lesson overseas—to bring California to realization of radical infiltration and all that it portends. But it is fortunate, indeed, that the State is finally aroused—and is prepared to deal with the situation. If California is finally awake the days of the "Fifth Column" are numbered.

It is estimated that the United States spends \$30,000 on each air student who completes the required 12-month training course at Randolph and Kelley Fields, Texas.

"The idea that actors are 'born, not made' is part of 'that 18th and 19th century attempt to catalogue artists of all sorts as a kind of aristocracy of culture and is hardly applicable today," Ralph Freud, instructor in public speaking, told a University of California audience in an address on "Theaters for Collegians." "Today we are tending toward a democratization of the arts. All sorts of paintings are being done by all sorts of people. Music is being written by filing clerks. Social service centers have sculpture classes where excellent work is being done. As for acting ability, I think it can be taught. By that I do not mean that anyone can become a 'glamour' boy or 'glamour' girl in ten easy lessons. Anyone who promises to teach acting and promises an opportunity in motion pictures or on the commercial stage is distorting the picture."

## Pupils May Have To Buy Own Towels At Public Schools

Students of all public schools can be required to furnish their own towels if the school trustees want to cut their budgets to that extent, County Counsel J. H. O'Connor ruled this week in an opinion requested by the Glendale city school district.

Inquiries have been received for several districts as to exactly what the school districts have to furnish the students, following a recent opinion from Attorney General Earl Warren that school districts could not charge for many things furnished.

It is optional with the districts whether they furnish gymnasium suits, shoes and R.O.T.C. insignia, the county counsel, who is legal adviser for all of the county's schools, said.

## Arcadia Urged To End Confusion Over Central Avenue

Confusion from failure of the Arcadia city council to change the name of the former Central avenue within Arcadia city limits has resulted in a request by the Sierra Madre council that the change be made as speedily as possible to conform with the designation of Sierra Madre blvd. in Sierra Madre, through the Hastings estate and into Pasadena and San Marino. The thoroughfare is now known as Sierra Madre boulevard to Huntington drive, only the short stretch beyond the little Santa Anita wash in Arcadia being known now as Central avenue.

## WILD FLOWER SHOW IN HILLS ABOVE THE CITY IS GREATEST EVER, SAY AUTHORITIES

Four of the best informed citizens hereabouts on the mountains just above Sierra Madre agree that the highlands just a couple of miles from the city were never lovelier than just now, with the greatest profusion of wild flowers they have ever seen in the hills.

"In all my experience in the hill I have never seen so many wild flowers, nor such a great variety of them," said Joe Clark, former proprietor of Clark's Half-Way House on Sturtevant Trail, who makes his headquarters now at Hoegee's Camp. "And they are to be seen so easily," he added. "Motorists driving to the end of Santa Anita Highway and turning to the left toward Hoegee's will come suddenly upon them in less than a mile, and they extended far up along the streams and along the mountainside."

Ben Hosford, owner of Clark Lodge, agrees with Mr. Clark. He has never seen the mountainside so beautiful, he says, and his property is just in the midst of the wildflower fields. "Now that the weather is warming up they can't last much longer," said Hosford, "but there is a treat in store for anyone who takes the trouble to see them."

Louis Newcomb, long time old time ranger, regarded as the best informed man in the foothills on the Angelus forest—credited with

knowing every spring, gully and boulder in the great virgin country above, says it is hard to come "out" of the back country just now because it is so beautiful. The wildflowers race up over the steep grades and back into Charlton Flats and Chilao where his ranch is located.

Forest Ranger "Pat" Harlan agrees with all of them; he has never seen so many wildflowers—such a great variety. And though they are still coming out, it is improbable they can last a great while longer because of the increasing warmth and lack of moisture.

"You see," said Harlan, "there hasn't been any morning fog up there such as we have been having to keep the temperature down in Sierra Madre and along the coastal plain. There has been no fog since early April. Just now the sun comes up about 5:30 a.m. and remains until nearly 6:30 in the evening. It is warm, not hot, but pleasant and beautiful all day long and the nights are a perfect dream. The picnic and camping grounds at Charlton Flats and Chilao are becoming more popular every week as the lovers of the great outdoors learn how marvelous the area is and what fine accommodations have been provided for picnickers and campers."

## Wonder Why Women Won't Join Base Ball Teams Here

What to do about getting girls and young Sierra Madre women interested in playing baseball to assure enough talent for the formation of two or more teams is worrying the Kiwanis Club committee that is sponsoring the city baseball league.

Between 12 and 16 young women and girls show up for practice at the school field every Monday evening. There are never less than 12 and out of those who appear regularly there is the making of one good ball team. But what to do about competing teams is the question.

"We felt sure there would be at least 40 and 50 candidates for places on girls teams here," said Clarence Huntsinger, chairman of the committee, "and I am sure that if the young women who are interested would come up to the field Monday evening and see with what real enthusiasm those who practice regularly show, we would have the material for three or four good teams. We have been hopeful that out of about three teams we could select one all-star team to represent the city in the valley league, where the girls' games draw bigger crowds than the men's and we have not abandoned the hope that it is still possible to do this."

Representing Sierra Madre in the PJC line of graduates at the Rose Bowl were 32 students, who left the upper and lower divisions of the two campuses and whose names appeared in last week's issue of The News.

Preceding graduation exercises which were attended by many Sierra Madreans, the Junior College band under the direction of Audre L. Stong, presented a concert program at 6:30. Senior graduates of PJC in blue caps and gowns headed the line of march into the great bowl, followed by junior collegians, junior high graduates from five schools, and nurses from Huntington Memorial Hospital Training School.

Spirit of this year's exercises was expressed in an editorial in the New York Times, from which a theme song was written by Miss Katherine Kester, junior college faculty member.

"The Spirit of freedom is... expressed in the expansion of the personal experience, in an individual's rather than a nation's room to grow, in the unlocking of human powers and human opportunities. No disaster can black out a nation which lives in that spirit."

Colored lighting effects on a structure symbolically constructed to typify confused thinking in the world today was especially impressive, climaxed by reading of lines from "God of the Open Air" by Henry Van Dyke. A clear white light, symbolizing freedom, was the striking close, with the entire student body singing a patriotic song.

Rev. Albert E. Day, pastor of the First Methodist Church, delivered the invocation and John Sexson, superintendent of schools, gave a short talk.

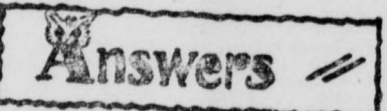

## FINDS CANADIANS SURE OF VICTORY

Mr. and Mrs. R. E. Wright, 540 West Algeria avenue, returned Saturday from a three weeks trip during which they visited the Exposition at San Francisco and then continued up the coast to British Columbia, enjoying several days at Victoria and Vancouver Island. They re-crossed the border above Glacier National Park where they enjoyed a pleasant stay, then drove to Yellowstone Park and home via Salt Lake City. In Canada, the Wrights found unshakable confidence among the Canadian people that Great Britain will be victorious in the war.

June is well on its way and the fire hazard from weed grown lots increases. Attempts to rid lots of weeds by burning should be made only after a permit is secured. Make this clearance wide enough so that there is no possibility of the fire lighting fences or shrubs. The same applies to all out buildings. ## 'Round The Town

Mrs. Randolph Wood and Miss Elizabeth Ferris returned this week from San Francisco where they visited Miss Edith Hawks en route home from Stillwater Cove Ranch, a private junior high school for boys where they attended the graduation of Mr. Wood's cousin, George Land.

Mr. and Mrs. Charles Kinnear 110 E. Mira Monte avenue left this week with a Townsend good-will trailer for St. Louis where they will attend the fifth national Townsend convention which will be held from June 30 to July 4. They will be away several weeks and will carry visual education lectures of the Townsend plan throughout the middle western states.

Mrs. J. S. Billheimer was the guest of Lieut. and Mrs. Joseph Storm of E. Laurel avenue at luncheon and for a pleasant afternoon outing last week.

Mrs. Nettie B. Cosper, 52 West Sierra Madre blvd., left last week for an extended visit in the Pacific Northwest.

Mr. and Mrs. W. S. Christie have recently moved from Pasadena to 291 W. Sierra Madre blvd. Mr. Christie is the brother of D. B. Christie.

Mrs. T. L. Blanke of 271 N. Sunnyside avenue left Monday for Chicago where she will join Mr. Blanke. Together they will visit friends and relatives in Wisconsin, including Mrs. Blanke's mother Mrs. H. M. Heller and then will enjoy a leisurely cross-country motor trip, arriving home sometime in July.

Miss Consuela Braden completed her first year in Ramona convent last week and is now home for the summer with her mother, Mrs. Evelyn Braden of 746 Woodland drive.

Mrs. W. B. Stringfellow has returned to her home at 497 West Grand view avenue following a week at Catalina where she was houseguest of Mrs. William Wrigley.

Miss Catherine Colligan, daughter of Mr. and Mrs. W. J. Colligan will leave this weekend to spend the summer with Betty Ellen Dailey at Coso Hot Springs. J. C. Mead of 600 North Auburn avenue, received word last week that his 82 year old father, Charles W. Mead, had arrived safely in Cleveland, Ohio. The elder Mr. Mead had spent several months in Sierra Madre at his son's home. He liked the streamlined train "because it went so fast," and the Sierra Madrean thinks perhaps next time his father will try traveling by air.

## Papers Filed For Hinshaw As Candidate

His presence being required in Washington where he is helping lead the fight to keep the Congress in session during the fast-moving war developments abroad and prepare the American defense program, Congressman Carl Hinshaw permitted friends of this area to file his papers as a candidate for the Republican nomination for Congress in the 11th Congressional district Wednesday. Tomorrow is the last day for the filing of papers.

Mr. Hinshaw in communications with Russell A. Stapleton, campaign manager, admits that during the present grave international crisis, he is depending on his friends "back home." He hopes to make occasional trips to the district for conferences by airplane.

## Is there a Formula for Success?

Why do some forge ahead, while others get nowhere?

We doubt if there is a formula that would make success sure. But there is a "success system" that seems to work time and again.

It is this: 1. Set a goal; 2. Strive steadily toward it; 3. Put part of your wages in a bank account each pay day so that you will be ready for opportunity when it comes.

IT'S YOUR MOVE...  
Here Are Money Savers

### What A Girl Sees Ramblin' 'Round

WHETHER or not it is scientific data... Forest Ranger "Pat" Harlan of the Santa Anita ranger station, made an interesting discovery recently... when driving along at 28 miles an hour... He noticed a bee flew beside the car for more than 100 yards... Bees travel along speedily enough... but Harlan didn't know they could do 28 miles an hour.

● This happened in Texas... A tourist asked a hotel manager in Amarillo what attractions the city offered... "A helium plant—the only one of its kind in the world"... the hotel man said... After thanking him the tourist added "I hope it's in full bloom!"... Helium, the stranger didn't know... is a gas used in dirigibles...

● Two baby humming birds a week old... in a nest the size of half an egg... are viewing Sierra Madre from a rosebush... The nest is so small it is practically invisible... and the tiny birds are just clumps of gray feathers... with bright dots for eyes... Some beautiful roses are going to waste because the mother humming bird maintains a hands-off policy as far as the bush is concerned.

● There is a group of Sierra Madre boys who have peculiar ideas about a good time... They thought it would be fun to disrupt a program at St. Rita's... and with stink bombs they succeeded... and made it quite unpleasant for all... Nice, well-bred, kids we'd say...

● Many people dislike chow dogs... Just why... we didn't know until we heard a citizen who has had much experience with dogs give his version... He said we have to put up with snobishness in humans but why from dogs... we didn't have to take it... Those who own chows don't agree that they are uppity...

● One of the most beautiful springtime sights in Sierra Madre... the hundreds of blue flowering jacaranda trees... is rapidly passing for another year... For the past few weeks the blossoms have been gorgeous but warm weather is putting an end to their delicate loveliness... While the flowers are on their way out... the leaves are bushy and green...

● We just dropped an important piece of work and raced through the building to answer the telephone... "Ah, hang up—this is the wrong number," said the "well-mannered" lady on the other end of the 'phone when we told her our number. What would you have said... or done in such a case?

### PITY THE POOR CADDY

case? On second thought maybe you'd better not send in your answer... it undoubtedly couldn't be printed in this family journal... any more than it is possible to print some of the things townsfolk tell us about their neighbors who borrow their copy of the NEWS instead of subscribing to the paper themselves... Even freedom of the press doesn't permit that.
